*The separation of field versus online reporting is to give more reliability to the numbers presented as well as to more accurately capture the impact of ISI.

**Scientific Survey: Based on the findings of a scientific survey conducted by a reputable third party, and with board of trustees approval, we estimate the number of student decisions for Christ through our thousands of volunteers which are not reported to us directly.

***This number does not include data from volunteers.

****This number is derived from 18/19 Open Doors data.
